 Visual Studio Code

 GitHub

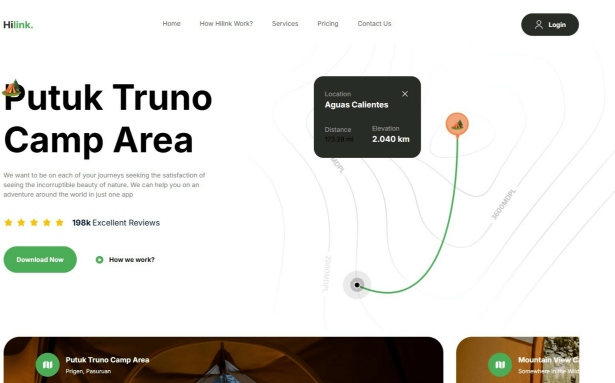

## Projects

### DropShoes

Developing a responsive shoe e-commerce website named "DropShoes" designed to provide an intuitive and engaging online shopping experience for users. The project focuses on core e-commerce functionalities such as product browsing, shopping cart management, and payment simulation.

NEXT  

### Hilink

Develop an interactive web application called "Hilink" designed to help users explore and discover tourist destinations. The application focuses on an attractive user interface and efficient search functionality, allowing users to view tourist location details and interact with UI elements.
